### 3 WOODS

Mia & Eric (CAN)

For 3 WOODS, interdisciplinary artist duo Mia Rushton and Eric Moschopedis will go on a remote research journey in the summer of 2020: From Calgary, Canada, they will explore the forests of the Rhine-Neckar region with the help of local experts, organizations and residents. They are looking for facts about the physical geography, ecology and use of the forest landscapes as well as for popular stories, unknown anecdotes and personal experiences. What does the forest mean to us as a place of reality and imagination - today and tomorrow?

**Be their eyes and ears, fingers and noses!** All findings will be exchanged digitally via Telegram messenger and made accessible on the website of the project.
